MINI 2: (DUE to your Canvas "MINI 2" Assignment by 10PM on Sunday, January 21, 2018)

Using your preferred search tool and search techniques, find at least three on-line entries (from three **different** sites or locations) about the following:

1. What are "intents" in the Android "environment" and why are they so important? Why are they a topic/tool that every Android Developer needs to understand?
2. What are "themes" as they apply to Android Applications? How do you use them? What are the advantages? What are the most important features/aspects?
3. Android supports at least 6 "ViewGroups" to support/control the design and layout of applications. What are the 6 "groups" and why is the ViewGroup an important tool? Based on your research, discuss at least one instance where you could apply/employ each of the 6 supported ViewGroups.

For EACH of these 3, please write up the following and have it ready to submit by the assigned deadline:

1. List the 3 URIs you used as a result of your search.
2. Offer a 1 or 2 **paragraph** précis of the topic. Summarize what was said in what you read.
3. Offer, in your own words, a summary explanation of what you think the one or two **most important points** were in what you read.
4. **For JIT 2:** Ask your **one big question**. You may have many, but think carefully and ask the one you think is most important to help expand and deepen your understanding of this subject.
